Our Philosophy

We believe children learn best in a play-based environment. Play-based learning allows children to explore, create and develop new skills while having fun.

Activities are designed to help each child develop at his/her own pace in a nurturing atmosphere. Imaginative craft projects are offered daily to improve fine motor skills. Climbers, sensory tables, puppet theaters and many other items are used in the classroom. Our outdoor playground offers children time for exercise and play.

Teacher directed circle time gives children a chance to enjoy group stories, rhymes, poems and songs.

Our program fosters these developmental areas necessary for kindergarten readiness:

Fine & Gross motor skills
Pre-math/science
Pre-reading
Creativity
Social skills
Social studies
